Teeny Toes at Bridgetown School of Performing Arts is a gentle, playful introduction to dance for children aged 2–4. Led by a Childhood Developmental Counsellor, classes are designed to support early childhood development through movement, music and play. Using play-based and creative movement approaches children build coordination, motor skills, brain–body connection, musicality and spatial awareness in a safe, nurturing environment.

Designed with little ones and their grown-ups in mind, Teeny Toes introduces the foundations of ballet and creative movement through imagination, storytelling and exploration. Each class encourages confidence, self-expression, joyful play and meaningful parent–child connection.
